Determining Industry Type powered by HuggingFace

Creating a Model

```
CREATE MODEL mindsdb.hf_industry_labeller
PREDICT label
USING
engine = 'huggingface',
task = 'text-classification',
model_name = 'sampathkethineedi/industry-
classification',
input_column = 'text';
```

Checking Model Status

```
SELECT status
FROM mindsdb.models
WHERE name = 'hf_industry_labeller';
```

Querying the Model

```
SELECT label,text
FROM hf_industry_labeller
WHERE text = 'Turbo charged engines boost the acceleration very much.';
```

Dropping the Model

```
DROP Model hf_industry_labeller;
```
